

What makes the JobFit System PEFA different from all of the other pre-employment functional assessments?

1. Saves you money on your bottom line

- **Predicts injury risk*** to help you reduce workers compensation claims
- Better decisions for safe job placement to reduce attrition for lower resourcing costs
- One referral. One contact. One invoice. **Guaranteed response times.** Reduces administrative overheads

2. Reduces your exposure to discrimination claims

- Job specific assessments based on the inherent requirements of the job for **compliance with anti-discrimination legislation**
- Objective consistent scoring[#] for clear evidence-based decisions
- Standardised reliable[#] quality assured assessments for fair treatment of workers regardless of geographical location, age or gender

300+ therapists in 100+ locations

The JobFit System PEFA is the **ONLY** functional assessment that has been scientifically validated in healthy workers

Scientific evidence* has shown that when workers do not meet the job demands using the JobFit System method they are at an increased risk of injury by

- ! **2.3 times increased risk** for any sprain or strain injury
- ! **3.3 times increased risk** for sprains or strains from manual handling
- ! **3.3 times increased risk** for back injury
- ! **5.8 times increased risk** for back injury from manual handling

Don't throw your money away on cheaper options!

Choose the functional assessment that actually works!
