

HEALTH Professionals

Are you spending too much time doing paperwork?

Would you rather
be out helping
people?

Do you sometimes
wish that you could
duplicate yourself?

Are you **concerned** that you
have all the **necessary**
information ?

If so, the JobFit System may be the missing piece in your puzzle of

fitting workers to jobs and jobs to workers

The JobFit System is a unique database program developed by health professionals for health professionals that objectively compares worker capabilities to job demands to assist you with:

- ✓ development of job-specific functional assessments for pre-employment assessments and job transfers so that you meet anti-discrimination requirements
- ✓ easy identification of productive and meaningful suitable duties saving you time
- ✓ electronic storage and immediate retrieval of task demands and worker capabilities for quick reporting and a reduction in the duplication of data entry
- ✓ monitoring, measuring and justifying your rehabilitation programs

**The JobFit System links employers, insurers and providers
for effective and efficient injury prevention and management**

**EMPLOYER
representatives**

**HEALTH
professionals**

**SAFETY
consultants**

**RISK
consultants**
